Art Unit: 1616

Acknowledgement is made of the response and amendment filed in paper no. 11.

Amendments are entered. Claims 1-16 and 18-44 are pending. Claims 1-13, 19, 20, 22-36, 38, 39, 40, 42-44 are withdrawn from consideration as non-elected invention. Claims 14-18, 21, 37 and 41 are rejected. Rejections under 102 and 112 are withdrawn because claims are amended. Double Patenting rejection is maintained because no terminal disclaimer was filed.

Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 1616

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 14-16, 18 21, 37 and 41 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tanabe et al. (WO 99/33859). Tanabe et al teach anti-estrogenic steroids, their compositions and method of use which embraces presently claimed invention. See the entire document especially, compound of formula 1b on page 23; preferred compound of formula IIIb on page 25; compounds listed on page 32, 33, 34, 35, and 37; scheme 16 and compound 79; scheme 17 and compounds 81, 82, 83 and 84.

Presently claimed invention differs from the reference in claiming the selective compounds from prior art invention.

Scheme 16

Scheme 17

See compounds on page 32.

It would have been obvious to one skilled in the art to prepare additional beneficial compounds for medicinal use because prior art teaches such compounds. Motivation is that these anti-estrogenic steroids are taught to be useful for block of binding of estrogen to its receptor.

In the light of the forgoing discussion, the Examiner's ultimate legal conclusion is that the subject matter defined by the instant claims would have been obvious within the meaning of 35 U.S.C. 103(a).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
